Use the Equity in Your Home to Get the Cash You Need

Home equity is the difference between the fair market value of your home and the combined principal balances of all mortgages you may have on the home. In short, it's the portion of the house you own and the lender doesn't. **Your home's equity is a valuable asset because you can use the equity as collateral for your loan. And, the funds can be used for whatever you need!** This means that you can get money from your home without having to sell it.

We have a variety of fixed- and adjustable-rate home equities and home equity lines of credit, which fall into two main categories.

Two Main Options:

• A **Fixed-Rate Home Equity Loan** provides you with a fixed rate and pay-

ments for the life of the loan.

• A **Home Equity Line of Credit (HELOC)** allows you to access your available funds

allows you to borrow what you need, when you need it to cover the costs. It allows you to borrow what you need, when you need it! Use the funds at

any time with the convenience of a check! HELOC interest may be tax deductible as well (please consult your tax advisor first).
