Annual Disclosure for VISA Check Card Transactions Processed as Non-VISA Debit Transactions

You may use your Visa Debit Card to initiate both Visa debit transactions and non-Visa debit transactions without using a personal identification number (PIN) to authenticate the transactions. To initiate a Visa debit transaction, you may sign a receipt, provide a card number or swipe your card through a point-of-sale (POS) terminal and choose to route the transaction over a Visa network.

To initiate a non-Visa debit transaction, you may enter a PIN at a POS terminal or, for certain bill payment transactions, provide the account number for an e-commerce or mail/telephone order transaction after clearly indicating a preference to route it as a non-Visa transaction.

Your Visa debit card also allows you to conduct transactions on the Star and CO-OP debit networks, which will generally require you to enter your PIN. Some merchants are authorized to accept non-Visa debit transactions without requiring you to enter your PIN. If you choose to sign to authorize a debit transaction, the transaction will be routed as a Visa transaction. Provisions of your cardholder agreement that specifically relate to Visa transactions are inapplicable to non-Visa debit transactions. Please contact us with any questions.
